It will be Bryan against McKinley next year. Tuesday's election settles that.

It was a sad but glorious day for the bosses. Hanna lost Cuyahoga county; Cox lost Hamilton. And there were others.

The Republican vote in Massachusetts fell off 28,000 from a year ago. Massachusetts is the home of the Republican anti-imperialists.

The Republican ticket was again triumphant in the home of the trusts—New Jersey. When the trusts want favors they know where to go.

CHANCES are that the Kentucky Legislature will have to settle the gubernatorial contest in that state. It is too bad that Senator Hanna made no speeches in Kentucky.

The New York Board of Trade has adopted a resolution that all bonds and notes of the United States and all paper money, including bank paper, shall be redeemed in gold only. It may be taken for granted that there will be no Congressional action along this line until after the Presidential election next year.

COMMENTING on the fact that Mayor Jones got nearly 4,000 more votes in Cuyahoga county than the combined vote cast for the Democratic and Republican candidates, Mr. James W. Holcomb, one of Cleveland's prominent Republicans, says: "Senator Hanna's methods of bossism are responsible for this. The people have rebuked him just as they have rebuked Cox in Cincinnati. Aside from all this, the Democrats of Cuyahoga county have repudiated the methods of McLean. The people have set their foot down on the bossism of Hanna, Cox and the rest."

THERE is considerable speculation in Washington just now concerning the war likely to follow the opening of Congress. It is said the ablest Republicans of the Senate will oppose the President in his Philippine policy. Interest seems to center in this direction about the senator from Maine. It is given out that Senator Hale, who in the last Congress was so firmly opposed to the President's Cuban policy, is equally opposed to the President's Philippine policy and is determined to fight it to the best of his ability. Senator Hale is a savage fighter when he once gets started. In the Cuban fight last year he was the strategist and tactician of the opposition and there are few better parliamentarians in the Senate than he. If he is determined to prevent the country being committed to the policy of going on record as retaining the Philippines he can doubtless cause the administration a good deal of worry and make things interesting—Youngstown Vindicator.

Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamberlain's Pain Balm with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—Adolph L. ATTENDANCE

At St. Mary's Church Fair Is Large—Two Farces.

The attendance at the church fair being held in St. Mary's hall grows larger each evening, an exceptionally large crowd being present Wednesday night.

The farces—"That Rascal Pat" and "The Black Statue"—were each presented for the second time this week Wednesday night. The cast of characters presenting the first is composed of the following named persons: George T. Casey, Edward Conway, Thomas J. Keenan and Misses Sadie Steinmetz and Ella Linn; the second, by Charles C. Orr, Thomas F. Coughlin, Michael Conway, Michael Walsh and Misses

Bridget Cummins and Bessie Gilhooly.

A solo was sung by Mrs. Arthur Barton. Miss Gertrude Adams was piano accompanist during the entertainment.

Dr. Bull's Cough Syrup is the Remedy on which you can depend for the cure of a protracted cough or lung affection, brought on by exposure to cold. It is the most excellent medicine sold. A bottle costs only 25 cents.

NOVEMBER

Meeting of Summit County Horticulturalists.

Large Number Members Were Present—Dinner Was Served.

At the residence of Aaron Teeple, South Portage path, just west of the city limits, the Summit County Horticultural society held its November meeting Wednesday.

The meeting was attended by over 100 persons who came from various sections of the county, arriving shortly before noon. Dinner was served from 12 to 2. During the dinner the guests were entertained with vocal and instrumental music by Mrs. H. M. Hollinger, of Cobb ave., a member of the Tuesday Afternoon Musical club.

After dinner a short social session was held. Music and singing were the principal features.

President I. P. Sperry, of Tallmadge, called the meeting to order shortly after 2 o'clock. The secretary, Miss Florence Hale, of Mogadore, read the monthly report, and Mrs. John Clark, of Bath, sang a Scotch song.

Reports of special exhibits on flowers and fruits were made by Mr. C. H. Gaylord, of Stow, and S. E. Barnes, of Tallmadge.

The fruit exhibits were confined chiefly to apples. A plate of fine Delaware grapes attracted considerable attention and favorable comment.

Clark E. Barnes, of Tallmadge, read a paper on "The Inferiority of Marketable Products."

Following the reading of the paper, "Marching Through Georgia" was sung by Mrs. John Clark, all present joining in singing the chorus.

The December meeting will be held at the home of George Brewster, Coventry township, Wednesday, December 13.

Not a Surprise.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from the attacks of croup and whooping cough. It is a grand, good medicine. For sale by all druggists, E. Steinbacher & Co., wholesale agents.

NEW HALL

Thrown Open to Public Wednesday Evening.

Dancing Floor Finest in Ohio—People Were Much Pleased.

The new XXth Century hall on South Main st. was formally opened to the public Wednesday evening by Prof. Wilbur F. Stickle.

The floor, which was built under the personal direction of Prof. Stickle, cannot be excelled in the United States. The floor is a trifle larger than Albert hall, while the balcony is very commodious and the two reception rooms spacious. The draperies are very beautiful and up-to-date.

Last night over 125 couples tripped the two-step, waltz, redowa and five-step on the new floor and all were laudatory in their expressions of appreciation in regard to the new dancing palace. A feature of the evening was the music discoursed by Prof. Stickle's full orchestra, under the direction of Mr. Gustave G. Smith.

The beginner's class will dance every Tuesday evening and the advance class on Thursday evening.

DIVISION OF SAMOA.

Agreement Reached by the Three Nations.

UNITED STATES GETS TUTUILA.

Also Smaller Islands Near By—England Gives Up Her Interest to Germany For Other Territory, Including Some of the Solomon Islands.

BERLIN, Nov. 9.—It was officially announced that an agreement, subject to the approval of the United States, had been arrived at between Great Britain and Germany, by virtue of which the Samoa act was repealed and the islands of Upolu, Savaii and the small adjacent islands fell to Germany as free property and the island of Tutuila and the subsidiary islands went to the United States. Great Britain, it was added, renounced any claim to the Samoan islands and Germany, in turn, renounced any claim to the Tonga islands and to Savage island in favor of Great Britain, and also ceded Chosenai and San Isabel, the two easterly islands of the Solomon group, with their insular surroundings to Great Britain. The consular representatives of the two powers in Samoa and the Tonga islands were to be withdrawn for a time and German subjects were to have the same rights as British subjects in regard to the free and unimpeded enlistment of native laborers in the whole of the Solomon group in the possession of Great Britain, including Chosenai and San Isabel.

At the same time an arrangement had been arrived at between the two powers, by virtue of which the so-called neutral zone in the hinterland of German Togoland and the British gold coast were to be divided in such a manner that the boundary of the German and British territories would be formed by a line running up to a point where the latter cuts the ninth degree of latitude, thence north by a line to be fixed by a mixed commission. To this was appended a reservation that the countries of Managua and Camboas should fall to Great Britain and the countries of Yendi and Chakosi to Germany. Finally, according to the decision of the colonial council, Germany had promised to renounce her extra territorial rights in Zanzibar till the expiration of the commercial treaty in 1902, with the proviso that the renunciation was only effective when the other nations abandoned their extra territorial rights in Zanzibar in favor of Great Britain.

A further agreement concluded between Germany, Great Britain and the United States was to the effect that the question of compensation for claims for damages during the late trouble was to be submitted to an imperial court of arbitration, which will decide all claims.

London, Nov. 9.—The British foreign office gave out a statement in regard to the Samoan agreement similar to that issued in Berlin, showing that the United States gets Tutuila and other Samoan islands out of the one hundred and seventy-first degree of longitude.

Washington, Nov. 9.—Whatever plan Great Britain and Germany might agree upon in Samoa it was signified that it was to be submitted to the ratification of the United States. This was necessary, as the change proposed could be made only by formal treaty which would require the approval of the senate.

It was believed that the arrangement proposed will be satisfactory to the state department. The United States is not concerned with the amount of charges of the compensation that passes between the other nations. Besides retaining the coaling station of Pago Pago, acquiring the island of Tutuila, whereon the harbor is located, and the three or four islets in the vicinity, the United States will continue to enjoy by stipulation the privilege of trading with Apia on conditions equally as favorable as those now existing. The islets referred to are not of any particular importance from a commercial point of view, but it is deemed essential to control them politically in order to prevent smuggling.

OCCUPIED BY MACARTHUR.

American Forces Took Possession of Malabacat—Several Filipinos Were Killed.

MANILA, Nov. 9.—General MacArthur occupied Malabacat. His entire line, including the Twelfth, Seventeenth and Ninth infantry and part of the Fourth cavalry, is extended three miles in front of Angeles, in a good tactical position. Major Neil took Malabacat.

Being ordered to reconnoitre until he located the enemy, he pushed into the town, driving out two companies of insurgents and killing several Filipino officers. The Americans suffered no loss.

Washington and the Indians.

More than once Washington entertained Indians. Trumbull, artist long of the hour, had painted a full length portrait of the president. Curious to see the effect, Washington led a party of full blooded Indians suddenly into the view of it. One of them advanced and touched the painted figure. "Ugh!" he grunted, with suspicion. He looked behind to see if it were really fat; discovered with disgust that it was. Not one would permit Trumbull to sketch him. The president took an amiable walk down Broadway with the Indians in their savage dress, paint and feathers, statefulness of civilization and savage stateliness contrasted. The dignity of the unregenerate Indian was real, and yet he was tickled like a child with this opportunity for display.—Lella Herbert in Harper's Magazine.

His Was the Better.

"One day after the Boston Transcript," the mother of a 10-year-old boy gave him two slices of buttered bread, telling him to give one of them to his little sister. He carried out the order. That night when he went to bed he was evidently disturbed in his mind and remorseful about something, and his mother questioned him in a way to bring out the truth.

"I—I wasn't nice to Peggy about that bread and butter," he owned.

"Why?" asked his mother. "Did you take the bigger piece?"

"No," he answered. "There was a little bigger than my piece was, but mine was a good deal butterier!"

INDEPENDENT

Companies Will Not Go Into Combine.

First Result of Formation of Continental Telegraph & Telephone Co.

The first result of the formation of the Continental Telegraph & Telephone Co., which was recently incorporated under the laws of New Jersey for the purpose of antagonizing the American Bell Co., has been a hard and fast compact among leading controllers of independent telephone companies to preserve their independence at all hazards says a Chicago special.

It is said in Chicago that the claim of the Continental promoters, of pledges from the majority of the independent companies, is absolutely unwarranted. Albert G. Wheeler, president of the Illinois Telegraph & Telephone Co. of Chicago, is one of those who claims that four-fifths of the independent companies will stay out of the combination. Mr. Wheeler says that not only will the Chicago companies refuse to join, but that Philadelphia and some of the other large cities where independent telephone plants are already in operation, have refused to go in.

James E. Keelyn, president of the Western Telephone Construction company of this city, is another strong opponent of consolidation. Mr. Keelyn was one of the leading factors in bringing the leading telephone men into a national association for mutual benefit. He declares that the leading men in the association are absolutely opposed to any scheme of consolidation that will subordinate their interests to those of any existing monopoly.

A Budget of Statements That Are More or Less Humorous.

Yeast—I had corn on the ear today. Crisnoback—Well, you've got some on your chin yet.

Mollie—What did you do down at the beach?

Chollie—Do? I was done!

Mollie—Do you know, papa can't keep his feet still when he hears music.

Chollie (timidly)—Well, please don't play until I get outside.

Yeast—Those Frenchmen are always looking for fight.

Crisnoback—Well, they better get over it before Dewey gets around that way.

Redd—Did talking of golf come easy to you?

Green—Some of it. When I got struck on the shin with the ball, I knew just what to say.

Fakir—Souvenirs! Souvenirs of the convention!

Delogate—Get out of the way! Can't you see I've got one? Look at the size of my head!

"I'm afraid your love is growing cold," said the young wife, arranging the last hairpin in her hair.

"No," replied the husband, hurrying down stairs, "but I know my breakfast."

Crisnoback—I always supposed the moon was cold.

Yeast—Well, isn't it?

"I'm afraid not. I went on a moonlight excursion the other night, and it was the hottest affair that ever happened."—Yonkers Statesman.

Did Bobby Get It? Well!

"Will you have a piece of the pie, Mr. Goodman?" asked Bobby's mother of the minister.

"Thanks, no," he replied.

"Will you, Bobby?" she inquired.

"No, I think not," said Bobby, rather hesitating.

The minister looked at Bobby in surprise.

"I thought all little boys were fond of pie," he said.

"They are," replied Bobby. "I could eat that built pie, but as said if you didn't take any I mustn't, and she'd save it for tomorrow."—What to Eat.

Reflections of a Bachelor.

When a young woman sets out to shock a man, she is unlucky if she does not get shocked herself.

It is almost always easier for a woman to like a man she doesn't trust than to trust a man she likes.

THE FRANCE SYSTEM OF TREATMENT.

The Science of Medicine has improved wonderfully during the last few years, and for this great progress we are indebted chiefly to those physicians who have confined their researches to a comparatively limited field.

For twenty years Dr. France, aided by many trained assistants, has been investigating in a new and original manner the nature and treatment of obscure and chronic diseases.

During this period a complete record has been preserved for study, reference and comparison, of nearly fifty thousand affections. The study of this vast number of disorders has led to many discoveries regarding their true nature and best methods of treatment. Our remarkable success in this comparatively limited field has resulted in an immense practice. We have constantly under treatment hundreds of patients from every state and territory in the United States, Canada, British Columbia and Mexico. Dr. France is aided by a large corps of trained medical assistants, and also by many consulting physicians, among whom are some of the ablest
